RESPONSE

Sir:

Applicant respectfully submits a Request for Withdrawal of Final Rejection. Applicant further submits this Response to the Office Action of November 4, 2004. Claims 1- 19 and 55-89 were pending in the application. Claims 1-19 and 55-89 stand rejected. Applicant believes the combination of the withdrawal of finality and responsive arguments puts the application to proper condition for allowance and respectfully requests allowance of the pending claims.

Request for Withdrawal of Final Rejection begins on page 2 of this correspondence.

Remarks/Arguments in Response to the Office Action begin on page 3 of this correspondence.

Request for Withdrawal of Final Rejection

Pursuant to MPEP §706.07(e) applicant respectfully requests reconsideration and withdrawal of Final Rejection status of the application. New facts and reasons for allowance of the claims as previously presented are made in the following remarks section that is responsive to the Office Action of 11/4/2004. These arguments focus on the Stang reference and the reference's many inconsistencies that simply cannot enable one of skill in the art to make the current invention. Alternatively, the Stang reference does not include anticipating steps for the claims and therefore, even if it were to be enabling, it cannot anticipate the present invention. Due to these new facts and reasoning, Applicant respectfully requests the finality of the rejection be withdrawn and the attached office action response be entered.
